

Eldy Tablet

Eldy_tablet combines the typical simplicity of Eldy with the intuitivity of tablet to offer seniors an useful tool to send e-mails, chat on line, surf the Internet in an easy way.

With a simple touch seniors can **send an e-mail to their family, chat, video-call friends and parents and access to the Eldy's blogs and forums** to interact with the Eldy community, read articles and actively contribute to the blogs with their writings. **Seniors can also inform on health, read the latest news and see weather forecast** in a very easy way.

Eldy_tablet is **compatible with a wide range of new generation Android tablet** (for example the Samsung Galaxy tablet, Acer Tablet Iconia, Motorola XOOM, but also the italian Onda Communication).

Eldy-tablet is free, it isÂ optimised for 10 inches, in Italian; soon will be available 7 and 8 inches version and other languages as well.

NEW! Click here to download the English version of Eldy tablet.
