## Eldy reviewed at MakeUseOf

A nice article on Eldy has appeared on MakeUseof.com

There are more than 6 million people over the age of 60 who arenâ $\in$ <sup>TM</sup>t familiar with the Internet, which is understandable since most operating systems available out there just arenâ $\in$ <sup>TM</sup>t exactly geared towards the elderly. There are things that will take some time to get used to, things like file browsers that hint at lots of folders that youâ $\in$ <sup>TM</sup>ll never touch and sometimes even cryptic error messages that donâ $\in$ <sup>TM</sup>t help much in resolving a problem.

The Eldy Association is an Italian non-profit organization looking to make it easier for new computer users to learn about email, browsing the web and more. According to its website, the Association  $\hat{a} \in \mathbb{T}^{TM}$ s goal is to  $\hat{a} \in \mathbb{T}^{TM}$ ereach out to the elderly and disabled community with a simple computer program that can encourage their staying active and social, thus reducing their isolation and loneliness  $\hat{a} \in \mathbb{T}^{TM}$ ereach out to the elderly and disabled community with a simple computer program that can encourage their staying active and social, thus reducing their isolation and loneliness  $\hat{a} \in \mathbb{T}^{TM}$ ereach out to the elderly and disabled community with a simple computer program that can encourage their staying active and social, thus reducing their isolation and loneliness  $\hat{a} \in \mathbb{T}^{TM}$ ereach out to the elderly and disabled community with a simple computer program that can encourage their staying active and social, thus reducing their isolation and loneliness  $\hat{a} \in \mathbb{T}^{TM}$ ereach out to the elderly and disabled community with a simple computer program that can encourage their staying active and social, thus reducing their isolation and loneliness  $\hat{a} \in \mathbb{T}^{TM}$ ereach out to the elderly and disabled community with a simple computer program that can encourage their staying active and social, thus reducing their isolation and loneliness  $\hat{a} \in \mathbb{T}^{TM}$ ereach out to the elderly and disabled community with a simple computer program that can encourage their staying active and social, thus reducing the elderly active and social is the elderly active active

## What IsÂ

Eldy?]

The resulting computer program that the Eldy Association came up with is Eldy, a bundle of essential programs in a easy-to-understand interface for the elderly, with big text and simple, recognizable icons, that has been translated to 22 languages. Think of it as a blown-up mini-operating system that contains an email client, chat system, web browser and even access to a simplified version of Notepad, Eldy TV, and Skype.
