

Eldy TV

Eldy is on TV!

With Eldy Tv people may surf the web, send e-mails, chat with friends and easily access to online services through a television connected to the Internet with a decoder.

Eldy Tv is available in the customized version for "Help Key Tv" Project, a project of the Municipality of Pordenone in cooperation with Azienda Sanitaria ASS6 of Pordenone, and Polo Tecnologico of Pordenone planned in order to allow senior and disabled Citizen an easy access to socio-sanitary services and promote innovative forms of communication.

We also created **another version of Eldy Tv** for the experimental project of broadband connection of Regione Lombardia, promoting access to the web and to the online services offered by the Public Administration.
